

Children's Museum of Denver at Marsico Campus Allergen Policy

Please be aware that the Children's Museum is not allergen-free, and that food residue and allergenic substances may be present anywhere in the Museum. The Museum allows outside food and drink in our café and outdoors in Joy Park. We do request that guests do not bring food or drink into any Museum exhibit, however, on event days and in the Museum's Teaching Kitchen, Studios and Assembly Plant exhibit, in particular, products and/or packaging that contain allergens or allergen residue may be present.

The safety of our guests is the Museum's highest priority, and we are aware and sensitive to severe food allergies faced by some of our guests. If you have concerns or questions regarding allergens in the Museum, please don't hesitate to contact a Museum staff member or Manager on Duty.
