Denver, CO – Monday, February 28 kicks-off the revival of the French Chef Series at the Children's Museum of Denver at Marsico Campus. The Museum's fully immersive Teaching Kitchen will host the Alliance Française de Denver to demonstrate traditional French cooking techniques and recipes to children and their grown-ups, and educate on the French language and dining culture.

"The Alliance Française de Denver is thrilled to continue our partnership with the Children's Museum of Denver at Marsico Campus," said Christina Savinar, the Marketing and PR Manager at Alliance Française de Denver. "We take pride in our efforts to mold the minds of younger generations through our children's classes offered at the AFD, and through our programs at the Museum. The benefits of learning a new language at a young age are invaluable, and now more than ever, we feel the urgency to open our children's minds to understanding new cultures."

The Teaching Kitchen at the Children's Museum of Denver at Marsico Campus is a hands-on kitchen with programming, tools and techniques specifically designed to educate families with young children on how to safely, and nutritiously, cook together in the kitchen.

"Our partnership with the French Alliance allows children to experience the wonderful elements of French cuisine and culture right here in Denver and we are grateful for the opportunity to be a part of that," said Erika Weiss, Associate Director of Education at the Museum.

The French Chef Series is included with Museum admission and takes place on the last Tuesday of the month at 2 pm and 3 pm. Program space is limited, first-come, first-served.
